Dramatically Boost Your Colour Management Workflow Efficiency

An Epson Stylus Pro SpectroProofer version automates the printing process, so it takes you less time and manpower to achieve superb results. It's easy to enhance colour management workflows, from colour calibration to target measurement and custom media profile data generation. SpectroProofer provides a number of benefits that busy professionals will appreciate. Simple to operate, it cuts work time dramatically by automating several colour management processes. At the same time, it improves colour accuracy. SpectroProofer is a great option that every proofer should consider.

BENEFITS INCLUDE

- Faster workflow with extensive automation
- Simpler operation with just a few mouse clicks
- Higher accuracy within your system's range
- No extra space required – fits right onto your printer
